Profile:

Highly motivated Front-End Engineer

As an expert in UI Development I put emphasise to a detailed implementation of responsive layouts.

I always strive to create a consistent look and feel for the best performing user interface.

As a team player I am highly interested in knowledge sharing and curious to learn new things every day.

Education:

- **since June 2023: Web Developer at Medienwerft GmbH, Remote**

Developing modern frontend solutions for various demanding customers and products as e-commerce shops and other web platforms.

- **2019 – 2023: UI Developer at immowelt GmbH, Nuremberg**

Implementation of the redesigned detail page and new features for the property search with a product team working with Angular and Scrum
Additionally creating a company wide design system with the UI Team using Sass

- **2016 – 2019: Apprenticeship as a media designer at immowelt GmbH, Nuremberg**

HTML5, CSS3, Sass, Javascript fundamentals

- **2015: educational year**

Trainings (HTML, CSS), Volunteering in two agencies, Language School in London

- **2014: A-levels at Ehrenbürg-Gymnasium Forchheim**
